Housing Supports Coordinators (HSCs) Drive MAP: "The little engine that could!"

MAP Housing serves participants with a team of HSCs who connect people to helpful, easy-to-use community resources and support. HSCs help manage Supportive Services. They guide participants on how to apply for housing help, find job training that fits their goals, and create strong applications for jobs, training, or volunteer opportunities.

When participants face challenges, HSCs are there to help, teach, and speak up for them. They also explain how different systems work, which can make things feel less stressful and easier to understand.

MAP is often called "the little engine that could." MAP Admin. Housing Lead Bree Crutchfield explains, "Every MAP HSC has the power to help participants climb their own hills so they can drive their own success and reach the outcomes they desire most!"
